

# Mortimer - English Club now also in Slovakia!

The name of our latest Mortimer Master partner in Slovakia is Iveta Znavova, who is, highly motivated after her successful master training in head office, currently starting to set up Mortimer outlets in her home country.

Management and Staff at headquarters are wishing her and her team all the best and great success with this exciting challenge!

This is now the 3<sup>rd</sup> foreign master franchise, after Austria and Hungary. And at head office we are certain that more will follow shortly, because we are currently in intense talks with further prospects from various countries, even outside Europe. Management and Staff at headquarters are pleased about the great international interest in the Mortimer concept, with which kids and adults alike can learn English in a playful way with lots of fun. The forthcoming concept “Fit for Business” completes the Mortimer range.

Mortimer - English Club has in the meantime over 300 outlets at home and abroad.

We are continuously searching for franchisees and Master partners at home or abroad, who would like to teach children and adults with the innovative concept or manage a language school. Further info under [www.mortimer-english.com](http://www.mortimer-english.com) or under 0049 (0) 2357 60190.
